# SD card real time data recorder 4 to 20 mA output SOUND LEVEL DATA RECORDER

## Model: MSL-388SD

## ISO-9001, CE, IEC1010

The Art of Measurement

### SD card real time data recorder 4 to 20 mA output SOUND LEVEL DATA RECORDER

#### Model : MSL-388SD

#### FEATURES

| FEATURES   |
|--|
| * Frequency and Time weighting are designed to meet IEC 61672 class 2. |
| * A & C weighting networks comply with standards.                      |
| * LCD is dot-matrix with backlight and easy reading.                   |
| * Data-logger and Sound level meter.                                   |
| * 0.5" standard microphone head.                                       |
| * Time weighting (Fast & Slow) dynamic characteristic modes.           |
| * Condenser microphone for high accuracy & long-term stability.        |
| * Memory function to store the Max. & Min. value.                      |
| * Hold functions.  |
| * Real time Datalogger   |
| Records device of an external  |
| memory device (SD memory card ) ,Real time Datalogger, it Built-in     |
| Clock and Calendar, real time data recorder, sampling time set         |
| from 5,10,30,60,120,300,600,1800,3600 seconds.                         |
| * Manual datalogger is available (set the sampling                     |
| time to 0 second ).  |
| * Innovation and easy operation, computer is not need to               |
| setup extra software, after execute datalogger, just take              |
| away the SD card from the meter and plug in the SD card                |
| into the computer, it can download the all the measured                |
| value with the time information (year/month/date/                      |
| hour/minute/second ) to the Excel directly, then user can              |
| make the further data or graphic analysis by themselves.               |
| * SD card capacity : 1 GB to 16 GB.                                    |
| * Can default auto power off or manual power off.                      |
| * 4-20 mA analog output.   |
| * Microcomputer circuit, high accuracy.                                |
| * Power by UM4/AAA (1.5 V) x 6 batteries or DC 9V adapter.             |
| * RS232/USB PC COMPUTER interface.                                     |

\* Heavy duty & compact housing case.

| Circuit     | Custom one-chip of microprocessor LSI         |    |
|-------------|---|----|
|             | circuit.                                      |    |
| Display     | LCD size : 50 mm x 30 mm                      |    |
|             | LCD with green backlight ( ON/OFF ).          |    |
| Measurement | SPL : Sound pressure level                    | -  |
| Type        |   |    |
| Measurement | SPL: 30-80,50-100,80-130, Auto 30 - 130 dB.   | -  |
| Range       | STE * 50 00,50 100,00 130 , Auto 50 * 150 ub. |    |
| Resolution  | 0.1 dB.                                       | -  |
| Function    | dB ( A & C frequency weighting ),             | -  |
|             | Time weighting (Fast, Slow),                  |    |
|             |   |    |
|             | Data hold                                     |    |
| -           | Record (Max., Min.).                          |    |
| Accuracy    | Characteristics of " A " frequency weighting  |    |
| (23 ± 5 ℃)  | network meet IEC 61672 class 2.               |    |
|             | Under 94 dB input signal, the accuracy        |    |
|             | are :   |    |
|             |   |    |
|             | 31.5 Hz ± 3.5 dB                              |    |
|             | 63 Hz ± 2.5 dB                                |    |
|             | 125 Hz ± 2.0 dB                               |    |
|             | 250 Hz ± 1.9 dB                               |    |
|             | 500 Hz ± 1.9 dB                               |    |
|             | 1 K Hz ± 1.4 dB                               |    |
|             | 2 K Hz ± 2.6 dB                               |    |
|             | 4 K Hz ± 3.6 dB                               |    |
|             | 8 K Hz ± 5.6 dB                               |    |
|             |   |    |
| Frequency   | Characteristics of A & C.                     |    |
| Weighting   | A weighting :                                 |    |
| Network     | The characteristic is simulated as "Human     |    |
| Network     | Ear Listing" response. Typical, if making     |    |
|             | the environmental sound level                 |    |
|             | measurement, always select to A               |    |
|             | weighting.                                    |    |
|             | weighting.                                    |    |
|             |   |    |
|             | C weighting :                                 |    |
|             | The characteristic is near the "FLAT"         |    |
|             | response. Typical, it is suitable for         |    |
|             | checking the noise of machinery (Q.C.         |    |
|             | check) & knowing the sound pressure           |    |
|             | level of the tested equipment.                |    |
| Data hold   | To freeze the measurement value.              | _  |
|             |   | -+ |

| Time                  | Fast t 10F mg  |
|-----------------------|--|
| Time<br>weighting     | Fast - t = 125 ms<br>* "Fast" range is simulated the human ear |
| (FAST &SLOW)          | response time weighting.                                       |
| (TAST &SLOW)          | Slow - $t = 1 s$   |
|                       | * "Slow" range is easy to get the average                      |
|                       | values of vibration sound level.                               |
| Function selector     | range :  |
| SPL                   | 30-80dB, 50-100dB, 80-130dB                                    |
|                       | Auto range : 30~130dB.   |
| Frequency             | 31.5 to 8,000 Hz.  |
| Microphone type       | Electric condenser microphone.                                 |
| Microphone size       | Out size, 12.7 mm DIA. (1/2 inch).                             |
| Calibration VR        | Build in external calibration (key), easy to                   |
|                       | calibrate on 94 dB level by key button.                        |
|                       | <ul> <li>* Calibrated via external SOUND</li> </ul>            |
|                       | CALIBRATOR (SC-941, SC-942, optional).                         |
| Calibrator            | B & K (Bruel & kjaer), MULTIFUNCTION                           |
|                       | ACOUSTIC CALIBRATOR Type 4226.                                 |
| Datalogger            | Auto 5,10,30,60,120,300,600,1800,                              |
| Sampling Time         | 3600 seconds   |
| Setting range         | @ Sampling time can set to 1 second,                           |
|                       | but memory data may loss.                                      |
|                       | Manual Push the data logger button                             |
|                       | once will save data one time.                                  |
|                       | @ Set the sampling time to<br>0 second.                        |
| Memory device         | external memory device ( AC Adapter only ) :                   |
| Merrici y device      | SD memory card. 1 GB to 16 GB.                                 |
| Advanced              | * Set clock time   |
| setting               | (Year/Month/Date,Hour/Minute/ Second )                         |
| ····9                 | * Set sampling time  |
|                       | * Auto power OFF management                                    |
|                       | * Set beep Sound ON/OFF  |
|                       | * Decimal point of SD card setting                             |
|                       | * SD memory card Format  |
| Over Indication       | Show " ".  |
| Data Hold             | Freeze the display reading.                                    |
| Memory Recall         | Maximum & Minimum value.                                       |
| Sampling Time         | Approx. 1 second.  |
| of Display            |  |
| Data Output           | RS 232/USB PC computer interface.                              |
|                       | * Connect the optional RS232 cable, UPCB-02 will               |
|                       | get the RS232 plug.  |
|                       | * Connect the optional USB cable, USB-01 will get              |
|                       | the USB plug.  |
| Power off             | Auto shut off saves battery life or manual off by              |
| Onenation             | push button.   |
| Operating             | 0 to 50 ℃.   |
| Temperature           | Less than 85% R.H.   |
| Operating<br>Humidity | LC33 (IId1) 03 70 K.T.   |
| Power Supply          | Alkaline or heavy duty DC 1.5 V battery                        |
| ower suppry           | (UM4, AAA) x 6 PCs, or equivalent.                             |
|                       | * DC 9V adapter input. ( AC/DC power                           |
|                       | adapter is optional ).   |
| Power Current         | Normal operation ( w/o SD card save data and                   |
| ourront               | LCD Backlight is OFF) :  |
|                       | Approx. DC 16 mA.  |
|                       | When SD card save the data but and LCD Backlight               |
|                       | is OFF) :  |
|                       | Approx. DC 16 mA.  |
|                       | * If LCD backlight on, the power consumption will              |
|                       | increase approx. DC 8 mA.                                      |
| Weight                | 250 g/ 0.55 LB. (without battery)                              |
| Dimension             | 132 x 80 x 32 mm.  |
|                       | ( 5.2 x 3.1 x 1.3 inch ).                                      |
| Accessories           | * Instruction manual1 PC                                       |
| Included              | * Plug of 4 to 20 mA output (SKT-AS385) 1 PC                   |
|                       | * Micophone with clip1 PC                                      |
|                       | * AC to DC 9V adapter1 PC                                      |
| Optional              | * Sound calibrator (94 dB), SC-941.                            |
| Accessories           | * Sound calibrator (94/114 dB), SC-942.                        |
|                       | * Sound wind shield ball, SB-01                                |
|                       | * SD Card.   |
|                       |  |
|                       | * USB cable, USB-01.   |
|                       | * RS232 cable, UPCB-02.  |
|                       |  |
